Detailed Action

Response to Amendment

Claims 1-55 are pending. This action is in response to the remarks received January 6, 2006.

Response to Arguments

The rejection of claims 1-12, 14, and 16-24 under 35 U.S.C. 102(b) as being unpatentable over Ogawa et al (US 2001/0023404) is maintained.

Applicant's arguments filed January 6, 2006 have been fully considered but they are not persuasive.

In response to the arguments concerning the previously rejected claims the following comments are made:

A.) In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., a product value appraisal system) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

B.) Applicant alleges that the prior art made of record fails to teach generates a rating corresponding to the proposal. The examiner disagrees with applicant's representative since Ogawa teaches generates a rating corresponding to the proposal (para. 0035, 0016, and 0079; fig. 14). In other words, Ogawa generates a rating corresponding to

the proposal by provides up-to-date commodity information and rate quote. In that a customer, consumer, shopper or user U1 or user U2 connects to the server via the Internet from a computer terminal and inputs a request for an insurance premium or rate quote from insurance companies A, B, and C.

With regards to the claims rejected as anticipated over Ogawa, the examiner would like to point out that the reference teaches the claimed limitations and thus provides adequate support for the claimed limitations. Therefore, the examiner maintains that Ogawa anticipated the claimed limitations.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
